

Track and manage your fleet

The MTD2 Tracker can be left dormant in your motorcycle only coming to life when it's alerted to unauthorized movements or perimeter breaches. These features can be set from your phone. This allows you to track your motorcycle only when required.

The Geo fences can be set to any size radius and alert you to the device exiting or entering the zone, or both. As the geo fence is breached the SMS message and alerts will be sent to your mobile. Place the zones around your house, garage, place of work, overnight parking location etc.

For added peace of mind you can call the device from your mobile to receive an instant SMS of its location and a WAP link to its position on Google maps.

Millions of Rand worth of vehicles are stolen from South Africa every month.

Most functional, accurate and reliable GPS tracking device on the market today. This next generation device is small and lightweight and can be concealed within the smallest of places. But still allows you to remove the MTO2 tracker if required for another purpose and re-install easily. Once installed the MTO2 tracker can be monitored wherever you travel. Top up credits via your mobile service provider.

You have the ability to live track via your MTO2 Tracking System control panel. This panel allows you complete control of

the device with no third party interference. Any changes you make to the settings are instant and you can customize the device to suit your lifestyle, individual requirements and commercial needs. Your vehicle can be tracked up to every 10 seconds meaning real time location reports. A key feature if your vehicle is stolen greatly increasing recovery chances resulting in less inconvenience and cost to you.

For fleet vehicles you have the facility to add unlimited devices to your control panel. The panel stores infinite location history of all your MTO2 trackers. Review all routes, select date and time you require, route reply feature, speed and distance, Google street view.

No Contracts ✧ **No Monthly Fees**

Our MTO2 will give you peace of mind, protection and a theft recovery solution.
